-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

S.O.O.

Art Unit: 1621

Claims 25-59 are pending in this application. The documents referred to as being provided with applicants' last response have not been received. Claims 28, 35, 42, 48 and 51-59 are held withdrawn from consideration for the reasons of record and the restriction requirement is hereby made final.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 25-27, 29-31, 32-34, 36-41, 43-47, 49 and 50 are again rejected under 35 U.S.C. 103(a) as being unpatentable over Weber et al., '976, taken with Durant et al., '675, and Durant et al., '604, for the reasons of record. Applicants' arguments have been given due consideration but are found non-persuasive. Contra applicants' arguments, Durant et al., '604, and Durant et al., '675, both disclose their R and R1 substituents may be hydrogen or groups overlapping those of Weber et al. '976. Durant et al. '604, and Durant et al., '675, both generically disclose compounds which have an unsubstituted amino and imino moiety. It would have been prima facie obvious at the time the invention was made to produce N, N-disubstituted guanidines in view of the teaching of Durant et al. '604 and Durant et al., '675 that one amino nitrogen of similar guanidine compounds may be unsubstituted and the other di-substituted.

No claim is allowed.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.

Any inquiry concerning this communication should be directed to Peter G. O'Sullivan at telephone number (571)272-0642.
